MISSION & SECURITY MANAGEMENT

BY OSCARS S.A.

OUR EXPERIENCE

OSCARS S.A. has long experience in tracking systems. In close collaboration with different airports, we focus on airside security and safety monitoring, to improve Mission and Security automated reporting.

OUR SOLUTION

Software as a Service

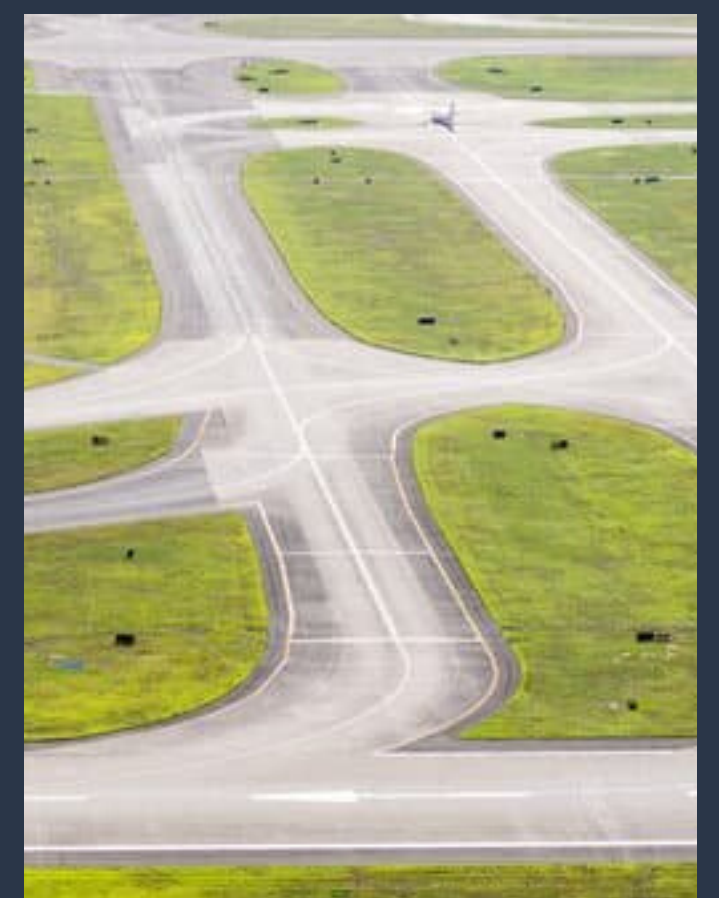

Resource, cost & flow analysis

Real-time planning management

AI & geospatial-based pattern recognition

VEHICLES MOVEMENT

Live info stream & alerts :

- Real-time updates on current missions
- Monitoring of security and safety activities

Analysis & reporting:

- Automated reporting
- Mission template

ASSETS MANAGEMENT

Live info stream & alerts:

- Point of control
- Sensor Alerts
- Correlated events control

Analysis & reporting:

- Planning versus actual missions
- Team management and planification
